

IVY PLACE GREENWAY

REPORT SUMMARY #2 Nov 15, 2015

What's the project?

An exciting community-based project to enhance and restore the natural ecology of the Ivy Place Greenway in Oaklands.

Who's involved?

- local neighbours and community members
- Habitat Acquisition Trust (HAT)
- IslandTransformations.org (ITO)
- funding through City of Victoria Strategic Plan grant

Recent news:

- invasive plant removal and site prep
- supporting documentation produced
- City staff were satisfied that all conditions of grant have been met
- top soil delivered and spread
- Nov 15: planting work party
 - native garden design by native plant consultant, Pat Johnston
 - neighbours plant over 200 native shrubs, perennials, and bulbs
 - initial work to address wet conditions

Next work party!

Nov 22, 1pm to 3pm.

Next steps:

- consider locations and ideas for signage
- improve trail to deal with wet conditions
- more planting and invasive plant removal
- add bird house at East Entrance
- as we remove ivy, consider other names: Oakland Greenway, Camas Knoll?
- should the road right-of-way be closed?

We welcome your ideas, questions, suggestions & comments:
